

NORWICH REGIONAL ANIMAL HOSPITAL

Treating Best Friends

Financial Policy

Norwich Regional Animal Hospital policy requires payment to be made at the time of service. Accepted form of payment are cash, checks, debit cards, and all major credit cards, including CareCredit.

We can also help you apply for financing for surgical procedures (CareCredit); information is readily available at our front desk. There is no hospital-administered financing program. If you have pet insurance, payment is due at time of service. Thereafter, please contact your insurance company for reimbursement. When requested, we are happy to assist with submitting invoices and patient records. Please let us know if we can assist.

All admissions (hospitalization, testing, surgery, and other procedures) will be provided with a written estimate of costs. Depending on the nature of medical care, actual cost may vary. We will attempt to contact you as soon as possible if the cost will exceed the high end of the estimate by 25%.

I understand that if there is a balance due, for any reason, and it is not paid per NRAH requirements, I will be responsible for any collection and/or attorney fees that are incurred in the attempt to collect the debt.

I have read and consent to the above financial policy.
